

## AVOCADO BUTTER

### AVOCADO BUTTER

Avocado Butter is obtained from the fruit of the Avocado tree (*Persea Gratissima*), which grows in sub-tropical regions of the world. The butter is created from the Avocado fruit oil through a unique hydrogenation blending process, which yields a soft, greenish butter with mild odor, and excellent moisturizing properties suitable for hair and skin care.

### WHY AVOCADO BUTTER?

Avocado fruit is rich in vitamins A, D, and E, essential fatty acids, and flavonoid antioxidants. Together these compounds act as protective scavengers against oxygen-derived free radicals and reactive oxygen species (ROS) that play a role in aging and various disease processes. In addition, these active constituents are of primary importance in the renewal of cell structure, assisting in wound healing, and calming of red, irritated skin.

Avocado Butter's low melting point (30°C - 35°C) gives it excellent penetrating qualities and good spreadability on the skin, making it ideal as a massage butter or carrier for hair and skin treatment products. It adds moisture to creams, lotions and bar soaps and adds lubricity, manageability, and luster to hair care formulations.

### ACTIVITY OF AVOCADO BUTTER

- ◆ Highly emollient and moisturizing
- ◆ Soothing
- ◆ Protects dry, sensitive and sun-exposed skin
- ◆ Anti-oxidation/Free radical scavenger
- ◆ Luxurious skin feel and texture
- ◆ Conditioning
- ◆ Revitalizes dry, damaged hair, restoring shine and elasticity

#### PRODUCT NAME

PREMIER AVOCADO  
BUTTER

#### APPLICATION(S)

skin care  
hair & scalp  
treatment  
sun protection  
anti-aging  
sensitive skin

#### COMPOSITION (INCI)

*Persea Gratissima*  
Fruit Butter

#### ORIGIN

Plant

#### CAS NUMBERS

8024-32-6

#### USE LEVEL

0.5-10%

#### SOLUBILITY

Oil

#### PRODUCT CODE

Premier # 125725

# PREMIER SPECIALTIES

Premier Specialties, Inc. 201 Egel Avenue, Middlesex, New Jersey 08846-2502

## AVOCADO BUTTER

### TYPICAL PROPERTIES

Appearance	Clear Yellow to Light Green Semi-Solid
Odor	Very Mild Nutty
Iodine Value (Wijs):	55 - 75
Saponification Value:	173 – 198
Peroxide Value (meq/kg):	5.0 max
Free Fatty Acid (% as oleic):	2.0 max
Fatty Acid Profile:	Range %
Palmitic, C16:0	20 – 37
Palmitoleic, C16:1	4 – 9
Stearic, C18:0	0 – 5
Oleic, C18:1	45 – 58
Linoleic, C18:2	3 – 18
Linolenic, C18:3	0 - 6
