PRODUCT NAME

PREMHAIR SHEA

APPLICATION(S)

hair care
anti-aging
color cosmetics
color protection
moisturizers
sensitive skin

COMPOSITION (INCI)

Butyrospermum
parkii (Shea) Butter
Emblica officinalis
Fruit Extract

ORIGIN

Plant

CAS NUMBER(S)

91080-23-8
90028-28-7

EINECS NUMBER(S)

293-515-7
289-817-3

USE LEVELS

1-10%

SOLUBILITY

Oil

PRODUCT CODE

Premier#421590

PREMHAIR SHEA

PREMHAIR SHEA

Based on the ideal combination of refined shea butter and Amla extract, PremHair Shea is designed specially for hair care applications.

PremHair Shea is highly emollient and skin compliant to help replenish vital lipids to hair and scalp. With protective antioxidant/anti-radical effects provided by Amla extract, PremHair Shea helps to prevent color fading and cuticle damage. In addition, Amla is believed to improve hair growth and support the strength of hair follicles, enhancing hair strength and minimizing hair loss. Great for use in shampoos, conditioners and hair shine products to improve brilliance and manageability.

WHY PREMHAIR SHEA?

Because of its unique fatty acid profile, PremHair Shea melts readily at body-temperature making it a very attractive emollient for many skin and hair care applications. It is absorbed quickly, ideal for the delivery of numerous active ingredients.

PremHair Shea contains Amla extract, providing protective antioxidant/anti-radical effects to prevent color fading and cuticle damage. In addition, Amla is believed to improve hair growth and support the strength of hair follicles, enhancing hair strength and minimizing hair loss. Great for use in shampoos, conditioners and hot oil treatments.

ACTIVITY PREMHAIR SHEA

- Rich in unsaponifiables to relieve dry irritated skin and scalp
- Replenishes skin lipids
- Helps protect and repair skin and hair from damaging effects of the sun
- Restores elasticity and softness to hair and skin
- Provides excellent antioxidant properties for color protection and anti-aging properties
- Excellent water-binding properties
